How to Save Your Bookmarks from Chrome

Open chrome – open in modern desktop if this is where your bookmarks are or on your local machine if that is where your bookmarks are.

Click on the 3 dots in the top right corner

Select Bookmarks and Bookmark manager

On the page that appears click the 3 dots in the top right hand corner and select Export bookmarks

The contents of your google drive will be copied across to the new system

Import Your bookmarks

Once on the new system you can import your bookmarks either back into Chrome, Internet Explorer or Edge.

Chrome – follow the instructions above however choose Import bookmarks rather than Export and then point to the file you saved when you created the Export.

Internet Explorer – click on the Favourite Star in the top right, click on the pull down arrow to the right of Add Favourites, select Import and export

Click Browse and select the location where you exported your bookmarks to

Click Import

Edge –

Click on the 3 dots in the top right and select the Settings cog from the menu.

Select Import from another browser and Import from a file

Browse to the file you exported from Chrome and select and import.
